Hey Tristin and Byron,

About an hour ago, [OMB](#) hosted on TechNet's Telligent platform, was taken over by the Syrian Electronic Army. So far, our MSCOM sites appear to be ok, but I'm wondering if we can/should check on microsoft.com to ensure this doesn't become more widespread and that MSCOM sites don't become targets. I'm not sure who to contact here, so I figured I'd start with you guys. How can we be proactive and help ensure MSCOM is safe and also support efforts by CorpSec in a case like this?
